

Interdisciplinary Minors

Health Care:

This interdisciplinary minor integrates knowledge from several disciplines to provide students with multiple lenses through which to explore questions about health care. Students develop critical-thinking skills to address the complex issues currently surrounding health care in the U.S. and beyond.

Requirements for a Minor in Health Care

- ECON3113 Economics of Health Care*
- PHIL2113 Ethics of Health Care
- SOC2123 Health Care: Systems, Structures and Cultures

Additional Courses:

Two additional courses, selected in consultation with the faculty advisor. Students majoring in a non-science field should choose a science elective as one of their courses:

- BIOL1211 Emerging Infectious Diseases
- BIOL2113 Human Nutrition
- CHEM1105/ Prescription and Non-Prescription Drugs 1125
- PSYCH2304 Adulthood and Aging
- PSYCH2405 Health Psychology
- SOC1111 Introduction to Social Work
- SOC2119 Age and Generations

*Prerequisite: ECON1101 Principles of Microeconomics

Leadership:

Regardless of formal position or title, people can be influential; they can be leaders. This six-course, multidisciplinary program challenges students with a rigorous, values-based, mission-driven curriculum that blends conceptual learning, experiential learning and reflection to foster leadership competence.

Requirements for a Minor in Leadership

- MGMT2211 Leadership: Person and Process
- MGMT2307 Organizational Behavior
- MGMT3211 Leadership at Work
- ENGL1207 Critical Speech Communication
- or
- ENGL1208 Persuasive Strategies and Rhetorical Traditions
- or
- PERF1111 Public Speaking: Voice and Diction
- PHIL2103 Ethics at Work
- or
- PHIL1115 Recent Moral Issues
- or
- PHIL2106 Ethical Theory

In addition, students must complete a service-learning course or other course dealing with a contemporary social problem or issues of public policy.
